

# Payat.io makes payments easy.

Our Payat.io payment portal makes bill payments **easier, simpler** and **more efficient** – for both the customer and our billers

## How it works.

Your customer receives an invoice or sms

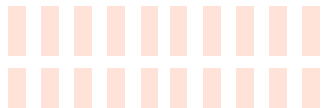

Your customer is ready to pay and at checkout is directed to payat.io

OR

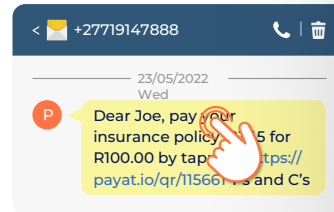

Enters their unique Pay@ reference number and checks their details are correct and then selects preferred method of payment.

Presses "submit".  
Voila. Payment made.

### SMS WITH PAYAT LINK

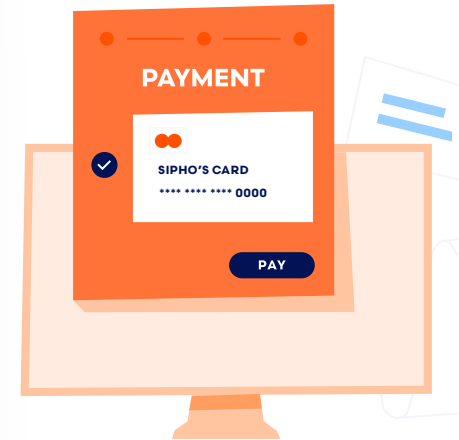

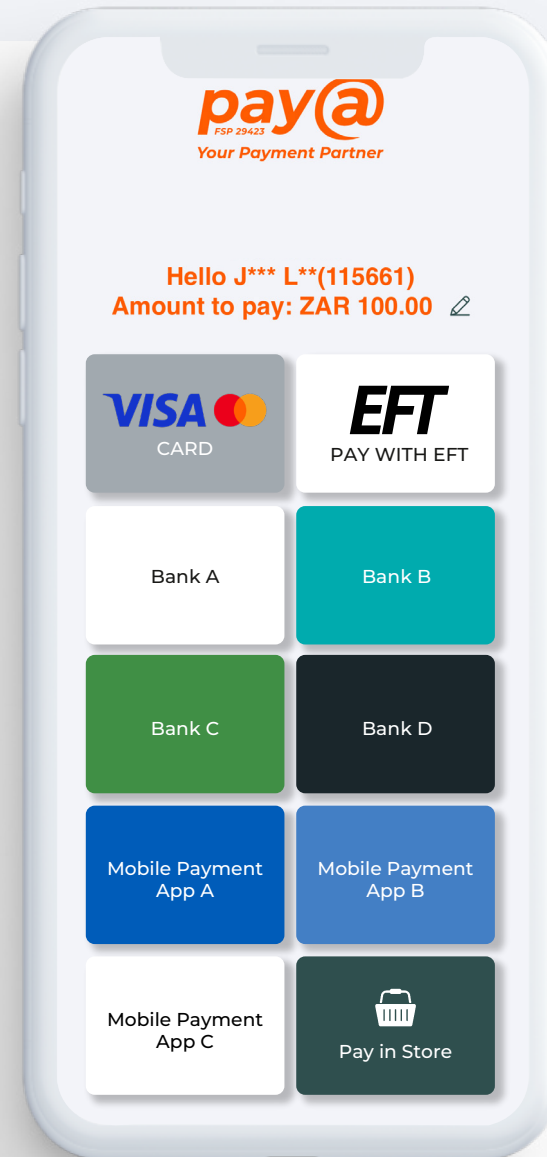

### PAY NOW BUTTON

### QR CODE

### BARCODE

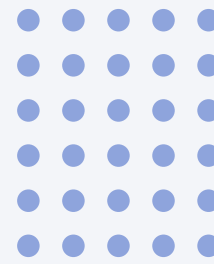

## The benefit.

Your customers link directly to their unique payment page, offering myriad payment options.

# Payat.io makes payments easy.

Use Payat.io for your ecommerce payments. Payat.io is a reactive hosted payment page that offers easy to use payment journeys with handback features built in as standard.

Payat.io can be branded with your business logo and colour schemes ensuring a seamless customer journey.
